

STAFF MEMBERS AS CONSULTANTS

Staff members who are requested to work during the school day as consultants to other school districts, educational institutions, state and national education associations, or other nonprofit organizations may be permitted to do so at the discretion of the superintendent. In deciding whether to permit a staff member to serve as such a consultant, the superintendent shall take into consideration the following: the opportunity for the professional improvement of the employee, the value of the experience to the school district, and the amount of the employee's work load that can be shared without adversely affecting the school district.

No employee shall be paid twice for the same work period.
