

# Bus Stop Locations

Each school year, the Huber Heights City School Transportation Department reviews and makes adjustments to new school year's bus schedules. We follow the State of Ohio guidelines for establishing bus stops while routing the buses in the most efficient way possible. This routing process may result in some students walking to a bus stop while the bus passes in front of their home.

For student safety, we require students to arrive at the bus stop five (5) minutes prior to the scheduled pick-up time. Every attempt is made to ensure that buses arrive at the bus stop at the scheduled pick-up time. However, there are times that circumstances such as traffic problems, mechanical problems, weather conditions and human resource issues may cause a delay in pick-up times.

Our first priority is to schedule eligible students who do not have transportation and we will work through any bus scheduling and bus Stop issues as quickly as possible
